Below FYI.....

Melissa is going to ask WVDEP to get with the company's consultant about the mg/l vs mg/kg.....

Thanks, Melissa... Should these be **mg/kg**?

Hi Jack,

Attached is a map of soil sample results from the facility contractor CRA. I don't know what the detection limit is, but everything but one sample came up non-detect.

Just forwarding it along to the Environmental Unit, although it doesn't give much information.

Thanks,

Melissa
